Fault code severity: Medium
Hours: 2,354
Maintenance: Overdue

Status: In use
Fuel remaining: 68%
Hours: 7,272

CAT CONDITION MONITORING PROVIDES VALUABLE DATA TO OPTIMISE PERFORMANCE

Fleet benchmark reports are free to all Mantrac customers. They can be highly tailored with information that helps increase productivity and decrease fuel cost.

- On-site inspections of your equipment
- Cat SOS checkups for oil, coolant and fuel
- Electronic data collection (telematics) through VisionLink
- Equipment history review & component tracking

619+

Condition monitoring alerts followed up on last year

3,900+

Condition monitoring alerts followed up on, to date

5,000+

Machines enrolled to date in ManCMS, the Mantra Condition Monitoring program

126,118+

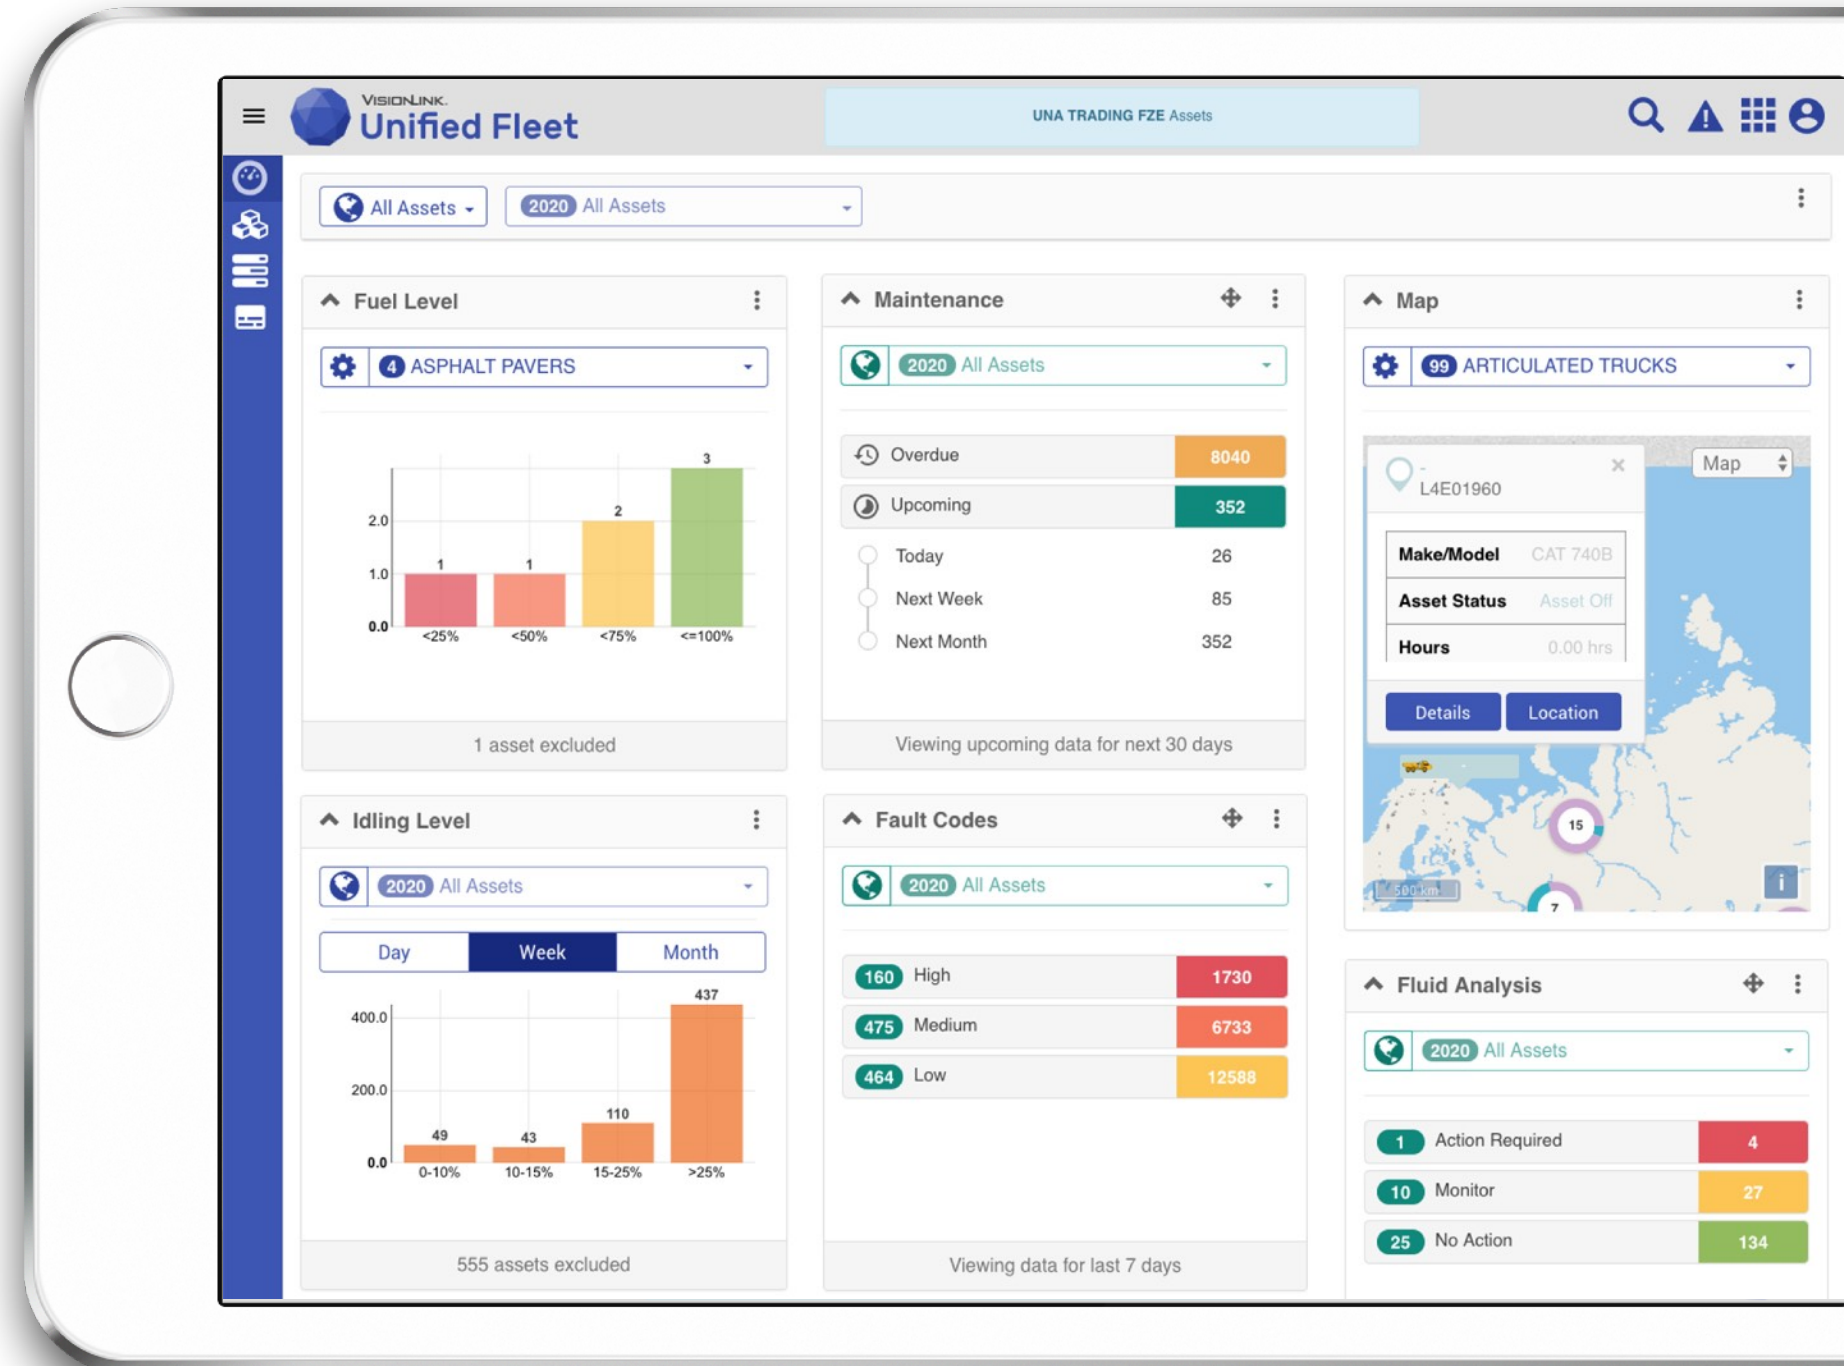

Red alerts produced across all our territories since the program's inception

A COMPLETE VIEW OF YOUR EQUIPMENT'S HEALTH

Fleet benchmark reports contain valuable insights that are gathered from a variety of touchpoints, including:

Benchmark reports contain:

- Utilisation
- Fuel burn
- Red alert fault code occurrences

CONDITION MONITORING: A WIDE RANGE OF BENEFITS

Condition Monitoring service

Mantrac looks after your machines by sending alerts, reports and recommendations.

Personnel training

Mantrac conducts online training for Cat Connect applications and other technical operations.

Customised training

Customers receive customised training materials based on their fleet needs.

Cat Connect support

Mantrac looks after all the Cat technology in your machines, including hardware installations and troubleshooting.

Online support

Mantrac is immediately available to provide support on all fleet concerns and issues.

Custom dashboards

Customer reports and dashboard views are set up and customised to display all relevant connectivity data based on customer needs.

Hardware advice

Mantrac advises on technology, hardware and kits parts required to be purchased and installed.

Live phone and WhatsApp support

Mantrac can provide live support to service teams during installation of Cat Connect hardware kits.

Benchmarking reports

Customers receive free fleet benchmark reports with insights and advice on improving productivity.

CAT CONNECT IS A PART OF CONDITION MONITORING

Cat Connect keeps you up to date on the status of your equipment and improves your operation.

The technology makes you more efficient, lowers your costs and helps you make smarter decisions. Tap into crucial operational data that can turn your problems into productivity and profits.

Cat Connect addresses today's challenges

Increasing competition

Missed deadlines

Complex operations

Increasing costs

Fuel theft

Equipment misuse

BENEFITS OF CAT CONNECT

Turn today's challenges into tomorrow's profits. Cat Connect, an intelligent suite of hardware, software and consultative services, can do the following:

Reduce costs

Monitor fuel consumption and prevent equipment failures.

Increase efficiency

Reduce project hours and identify equipment under-utilisation.

Monitor remotely

View job sites and entire fleets.

Enhance safety

Reduce man-hours, fatigue, and operator faults.

Improve security

Track equipment location, misuse, and fuel theft.

Personalised support

Receive expert recommendations with on-the-ground support.

Optimise investment

Extend the longevity of your investment with regular alerts on equipment health.

Optimise operation

Better schedule operations and maintenance.
